

# **Rugged, Keyboard Field Controller**

- 55 Key Alphanumeric Keyboard with Joystick
- Windows CE® 6.0 Operating System
- 5.17 Megapixel Camera and Bar Code Reader
- 256MB RAM, 2GB Flash Memory
- Built-in Wireless Bluetooth® and WiFi Connectivity
- Rugged and Waterproof

## FC-2600 Rugged, Keyboard Field Controller

A full-featured keyboard, ruggedized, handheld field controller packed with memory and built-in 5.17 megapixel camera.

### **Robotic System Controller**

The FC-2600 ruggedized and waterproof full keyboard interface makes for a great robotic rover controller. The large keys snap as you type so you know you have made a correct data entry. Even with gloved hands, the large keyboard is easy to operate. *Bluetooth*® connect to a robotic system for wireless control.

### **GPS System Controller**

The RTK rover pole is well balanced with this full-sized controller and visible LCD display. Direct sunlight makes the screen more visible outdoors. The FC-2600 is an ideal controller for RTK rover systems.

### **Live Video with WT-100**

The FC-2600 has built-in WiFi communication that connects to the Topcon Imaging Station (IS) system. The connection can be made directly to the IS, or through the extended range WT-100. The combination of the IS, WT-100, and FC-2600 make for a productive Live Video display robotic system.

### **Removable, Hot Swappable Battery Packs**

With two NiMH batteries loaded standard with 2500mAh each, battery performance can be as high as 42 hours. The typical power drain from a *Bluetooth®* connection to a GPS receiver will run for 24 hours. Don't ever worry about overcharging, the FC-2600 has internal temperature monitors to prevent any unexpected high temperature issues.

### **55 Key Alphanumeric Keypad**

- Fast data entry
- Gloved-hand operation
- Tactile click when storing a point
- Alpha, numeric and special characters

### Windows® CE 6.0

- Fast program operation
- Efficient memory management
- Fast power-on
- Long battery life operation

### **5.17 Megapixel Camera**

- Take photo notes
- Barcode scanning
- Illumination available
- Auto and manual focus

### **Long Battery Life**

- Dual batteries
- 42 hour operation
- Hot-swappable
- Common Topcon battery

The exclusive LongLink™ functionality in Topcon instruments provides lightweight, long range communication capabilities never before offered in a manual total station. With a 1,000+ ft. (300+m) wireless communication range, you can now operate the data collector from the "smart-spot" of the crew, the prism pole. Also referred to as the two-man, economical robot solution, Topcon's new LongLink™ technology brings a whole new level of flexibility to your manual field crew.

### **Built Rugged and Waterproof**

The FC-2600 was designed with rugged field applications in mind. The enclosure is completely waterproof and the device can be submersed in water and stay protected. The battery door, communication ports, and power plug are all waterproof. Do not fear harsh environmental conditions with the FC-2600.

### **SPECIFICATIONS**

### Computer

Microprocessor XScale PXA 270
Processor Speed 624 MHz
Operating System CE.NET 6.0
Memory 256MB SDRAM
2GB System Flash

### Display

Display Resolution
Type
3.52" TFT Color LCD
Light
Touch Panel
Amorphous Silicon
Active Matrix AD-TFT
Color Display

Screen Dimensions 2.89" x 2.19"

Keyboard 55 Keys (Power Key Included)

Interface RS-232C (D-Sub 9pin), Mini USB 2.0 A/B, USB OTG

Host and Client

Bluetooth® Bluetooth 1.2 Class II

Wireless 802.11b/g

Camera 5.17 megapixel with autofocus, shutter,

aperture and illumination

### **Environmental**

Water/Dust Resistance IP67

Operating Temperature -4°F to +122°F

(-20°C to +50°C)

Storage Temperature -4°F to +140°F

(-20°C to +60°C)

Shock Resistance 4 ft. all faces,

per MIL-STD 810F Method 516.5IV

Operating Time Up to 42 hours

Batteries Dual, Hot-swappable,

Li-ion Rechargeable, Smart battery

Dimensions 10.85" x 5.34" x 2.19"

Weight 2.3 lbs. with dual batteries

RoHS Compliant Yes

### SOFTWARE

# MACNET

A family of software solutions that streamlines the workflow for surveyors, contractors, engineers and mapping professionals.

### **Field**

### **Modern User Interface**

MAGNET Field provides a bright, graphical user interface with large touch icons, and bright readable text. The screens not only look good, but provide fast workflows.

### **Easy to Use**

The icon and text field interface has been optimized to provide both text and images to indicate what data is needed on each screen. Shortcut buttons and fast access tabs provide a very productive interface.

### **Advanced Calculations**

MAGNET Field not only controls the measurements of the instrument but also provides many COGO and adjustment calculations.

# **Office Tools**

### **MAGNET Office Tools**

Directly integrates into Autodesk® products utilizing their CAD engine, or as a standalone installation with Topcon's CAD engine. Either way, connect to MAGNET Enterprise directly from your CAD software.
